- Class ABC fire extinguisher
- Warm clothing for all travelers
- Non-perishable food & water
- Waterproof matches, candles & a coffee can

Further preparedness information can be found on the Office of Emergency Management's website at www.springsgov.com.

POWER OUTAGE PREPARATION

Storms, fires and other emergencies may damage or disrupt electrical lines and systems, leaving you without power for up to several days. This can be life threatening to someone who relies on power to sustain life-support equipment.

EMPOWER YOUR FAMILY:

- **Hand-crank flashlights** not only provide immediate light but also offer psychological comfort.
- **Lightsticks** provide an excellent source of emergency light.
- **Hand-crank radios** help you access emergency instructions and reliable information.
- **Extra batteries for hearing aids, TDDs, scooters, wheelchairs or a generator for life-safety equipment are essential.**

Further preparedness information can be found on the Office of Emergency Management's website at www.springsgov.com.
